Subject: Microsoft Settlement

To whom It may Concern!

The Government of United States of America should leave Microsoft alone because:

1. No other Company or Corporation (including, of course, the Government) than Microsoft has contributed more to the economic, social and global development of not only the United States of America but also the Entire Universe.

2. It is becoming very obvious recently that Elected Officials of the Govt. serve the interest of a very few influential and rich individuals only who .. . This would provide the Government the first opportunity to serve the general public whose day to day living conditions depends on good economic situation at home.

Thanks.
